**1942 PRICE LIST**

*Wentworth Gardens,* BATTLE CREEK, MICH.

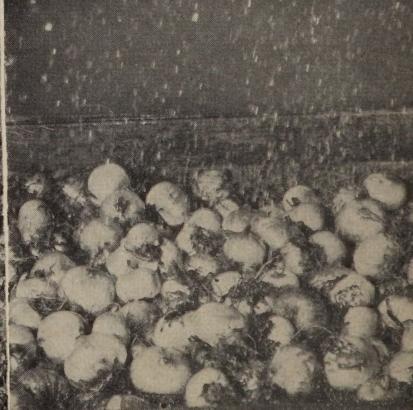

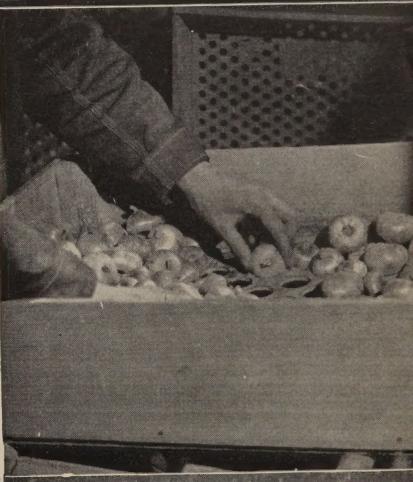

# WHY BUY NOW...?

**1** Now's the time to order 1942 Gladiolus, while memories of last August's blooms are still fresh. Remember the ones you saw at the Show . . . Remember the ones you wrote down for next season . . . While you can still find the list, place your order. Also, now that you've dug your bulbs you'll know which varieties you want to increase or replace.

**2** Now's the time my stock trays are full. It's the time when I'm best able to fill and set aside your requirements as ordered. Now's the time I have a wide selection of new introductions to put in your order for trial. Many of the listed prices are undoubtedly too low and will be corrected in the new Catalog coming up for publication after the first of the year. These prices will hold only until the new Catalog is published.

**3** Besides price, complete stock and your wants being fresh in mind . . . I am giving a new Wentworth Service that ends all arguments against Fall buying. It's my "Lay-A-Way" plan whereby you can order now and let me store your bulbs in my modern air conditioned, temperature controlled storage. They will be given complete Cyanide Gassing as recommended by the Department of Agriculture and other additional care that 99% of the average individuals are not in position to give. Leave it to me until you want delivery . . . but order now.
